

I was born in Worcester, England where I attended Kings School until I completed my A-levels at 18. After that, not really knowing what to study or where, I decided to take a gap year. That's where I fell in love with travelling and carried on for 12 years in total.

In those 12 years of working and travelling abroad I discovered more about myself and other cultures. I saw amazing sights, met wonderful friends & discovered new passions. In those years I worked in various countries across Europe, Australasia & North America, usually within hospitality.

I'm a very creative person, who enjoys photography & art amongst keeping fit and healthy (as possible) by partaking in various activities, usually water based sports, such as swimming, kiteboarding & surfing.

It was whilst I moved back to the UK and studied electrical engineering, that I discovered becoming a supporting artist. I am now living in Perth & studying carpentry at college to improve myself.
