Reference by Australian Filmmaker- Stevie Cruz-Martin:

It has been a wonderful experience watching Rikky Sharma showcase his talents in his latest work. We had the pleasure of working alongside him on three scripts, each character embodying something very different. Rikky is a kind soul and a talented actor, his training at NIDA & WAAPA certainly shows in his performances. He is very dedicated and puts the time and effort into each character he works on. As a filmmaker, we have captured his versatile range of performances, which can be seen in the Actor's Showreel that we made for him. His ability to slip so quickly into many different roles, is a wonderful attribute for an actor to have. We wish him all the very best on his next endeavour.

Filmmaker and Photographer

Reference by Australian Filmmaker- Loren Johnson:

I have worked with Rikky Sharma on several occasions and he always makes the experience a pleasure. He is a very talented young man who has a big future ahead of him, and I would not hesitate to work with him again on a future project. His ability to explore the character is outstanding as he fully delves into the world of his characters' minds.
